ELECTRIC BROODER

9KW & 5KW ELECTRIC BROODER

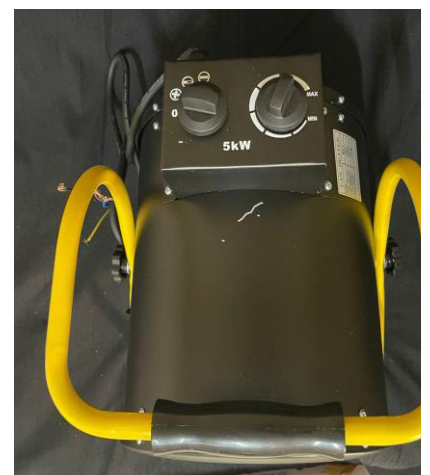

This electric brooder is used to confine chicks with their feed and water until they are old enough to go outside. The emitted infrared heat of these brooders is very effective for the brooding of chicks.

Product Features:

- 1.Heat up quickly and keep warm
- 2.Beautiful and generous style
- 3.High efficiency, energy saving
- 4.Environmental protection
- 5.No pollution and low noise
6. Easy and fast to heat

Specification:

Model	Electric Supply	Brooding Area Cover	Max Heat	Chicks Capacity
9 KW Electric Brooder	380-415v ~ 50Hz	980m3/hr	9000 W	2500-3000
5 KW Electric Brooder	380-415~ 50Hz	388m3/hr	5000 W	1500-2000

DIESEL BROODER

60 KW, 30 KW & 20 KW Diesel Brooder

Diesel or Kerosene direct-fired mobile /portable space heater with heater with open combustion chamber Brooder house, in agriculture, heated enclosure to provide shelter for young livestock and poultry. Chick brooders, are also called broiler houses, are typically wood-framed, wood- floored, movable structure heated by electric stoves and built on skids.

PRODUCT PARAMETERS

Model	Voltage	Power Kw	Airoutput m3/ h	Capacity L	Oil Consumption hr	Heating Area
ZEN - 20	220-240V~/ 50Hz	20	600	19	1.3 - 1.6	80-100
ZEN - 30	220-240V~/ 50Hz	30	720	38	1.5 - 2.4	150-200
ZEN - 60	220-240V~/ 50Hz	60	1100	56	2.0 - 4.0	250 -300

GAS BROODER

30KW & 50KW Gas Brooder

Brooder house, in agriculture, heated enclosure to provide shelter for young livestock and poultry. chick brooders, also called broiler houses, are typically wood-framed, wood-floored, movable structures heated by electric stove and built on skids.

Specification:

Model	Electric Supply	Fuel Consumption	air output	Bird Capacity
50 KW Gas Brooder	220-240v~50Hz	1.8-2.5kg/h	650m3/hr	3000-5000
30 KW Gas Brooder	220-240v~50Hz	1.8-2.5kg/h	650m3/hr	1500-2500
